

EXECUTIVE BROCHURE · 2026

Parag Jain

AI Solutions Leader, Account Partner, and trusted advisor for enterprise *GenAI transformation* — a forward-deployed engineer at heart.

EXECUTIVE SUMMARY

Accomplished technology leader with 24+ years driving large-scale enterprise transformations. Practiced as a Forward Deployed Engineer (FDE), embedding with clients to ship production AI from prototype to scale. Currently leading architects and engineers to design and deliver Generative AI-powered productivity assets and consulting accelerators — from LLM-based enterprise assistants and agentic AI frameworks to scalable data platforms across Banking, Healthcare, Automotive, and Logistics.

24+

Years experience

CORE COMPETENCIES

Generative AI Strategy

LLM Architecture

Agentic AI & RAG

Forward Deployed Engineer (FDE)

Client Engagement

Pre-Sales Leadership

Account Growth

AI Productivity Assets

Team Leadership (20+ FTE)

Cloud Architecture (AWS / Azure)

CURRENT ROLE · JAN 2023 — PRESENT

Lead Architect & AI Account Partner

IBM Consulting — Data Platform Services · Generative AI Solutions

- Built the GenAI Engineering Lab — curated portfolio of productivity accelerators demonstrating enterprise AI patterns.
- Architected ClaimWise-AI — intelligent insurance claims platform using LLMs + RAG to automate adjudication.
- Delivered OpenAI Enterprise Patterns — production-ready knowledge base used in workshops and pre-sales.
- Led AI discovery workshops, formulated GenAI adoption roadmaps, and influenced direct account growth.
- Championed reusable IP creation — reducing delivery timelines by 30-40% and scaling C-level conversations.

FEATURED WORK

GenAI assets & accelerators.

Enterprise Agentic RAG Platform

MULTI-AGENT · KNOWLEDGE GRAPH + VECTOR · CORRECTIVE RAG

Enterprise knowledge platform with multi-agent orchestration, hybrid graph + vector retrieval, and external agent tool-calling.

Intelligent Change & Release Analyzer for SAP

LANGGRAPH · AZURE OPENAI · FASTAPI · MILVUS

AI-powered platform automating SAP change-request assessment — impact detection, risk rating, effort estimation, DOCX reports.

EA Access Role Analyzer

LANGGRAPH · GPT-4 VISION · MCP · SERVICENOW

SAP access issue resolver — analyzes screenshots, classifies errors, auto-creates tickets, executes remediation.

ClaimWise-AI Platform

LLMS · RAG · INSURANCE ACCELERATOR

End-to-end AI solution automating claim intake, document understanding, policy matching, and settlement recommendations.

SIGNATURE ENGAGEMENTS

Two decades of trusted delivery.

Leading Australian Bank**INFORMATION ARCHITECT · 2021-22**

Client advisory for legacy-to-modern collateral platform migration.

Large US Healthcare Provider**DATA ENGINEERING LEAD · 2018-19**

First-of-its-kind production Watson AI assistant serving 500K retail members.

Top-Tier US Financial Institution**INDUSTRY MODEL SME · 2015-16**

60-week CCAR regulatory compliance program for a US bank with \$50B+ assets.

Global Logistics Giant (Denmark)**DATA ENGINEERING LEAD · 2022**

Blueprint architecture for next-gen supply chain data platform on Azure.

Leading German Automotive OEM**DATA ENGINEERING LEAD**

Re-architected legacy leasing monolith into API-gateway microservices with zero data loss.

Top Australian Bank**LEAD SOLUTION ARCHITECT · 2014-15**

Enterprise data warehouse transformation using IBM Industry Models.

CAREER JOURNEY

WAYS TO CONNECT

Let's build what's next.

Available for advisory, fractional leadership, FDE engagements, and full-time roles.
