PARAG JAIN

ENTERPRISE AI LEADERSHIP · 2026

turning data and AI into business outcomes

Available for new AI advisory engagements

Parag Jain

AI Solutions Architect & GenAI Strategist.

AI Solutions Leader, Account Partner, and trusted advisor for enterprise GenAI transformation — a forward-deployed engineer at heart.

EXECUTIVE SUMMARY

Accomplished technology leader with **24+ years** driving large-scale enterprise transformations. Practiced as a **Forward Deployed Engineer (FDE)**, embedding with clients to ship production AI from prototype to scale. Currently leading architects and engineers to design and deliver **Generative AI-powered productivity assets** and consulting accelerators — from **LLM-based enterprise assistants** and **agentic AI frameworks** to scalable data platforms across Banking, Healthcare, Automotive, and Logistics.

24+	500K+	20+	30–40%
Years experience	Users served (AI)	FTE leadership	Faster delivery via IP

CORE COMPETENCIES

Generative AI Strategy · LLM Architecture · Agentic AI & RAG · Forward Deployed Engineer (FDE) · Client Engagement · Pre-Sales Leadership · Account Growth · AI Productivity Assets · Team Leadership (20+ FTE) · Practice & IP · Cloud Architecture (AWS / Azure)

Parag.Jn@Gmail.com · +91 96635 50907 · Bengaluru, India

CURRENT ROLE · JAN 2023 — PRESENT

Lead Architect & AI Account Partner

IBM Consulting — Data Platform Services · Generative AI Solutions

- Built the GenAI Engineering Lab — curated portfolio of productivity accelerators demonstrating enterprise AI patterns.
- Architected ClaimWise-AI — intelligent insurance claims platform using LLMs + RAG to automate adjudication.
- Delivered OpenAI Enterprise Patterns — production-ready knowledge base used in workshops and pre-sales.
- Led AI discovery workshops, formulated GenAI adoption roadmaps, and influenced direct account growth.
- Championed reusable IP creation — reducing delivery timelines by 30–40% and scaling C-level conversations.

CAREER MILESTONES

Two decades across *global leaders*.

2003 — 2005	2005 — 2007	2007 — 2012	2012 — PRESENT

WHY PARTNER WITH ME

A rare combination, built over 24 years.

Dual Strength

Deep technical credibility in GenAI/LLMs combined with 20+ years of client-facing consulting — authentic C-level conversations.

Asset Builder

Proven history of building reusable IP (Industry Models, ETL Accelerators, GenAI Labs) that drive account expansion.

Global Delivery

Engagements across USA, Australia, Germany, Denmark, and India — cross-geography account dynamics and cultural nuance.

Industry Breadth

Active references in Banking, Financial Services, Healthcare, Insurance, Automotive, and Logistics.

Pre-Sales Leadership

Experienced in RFI/RFP leadership, solution demos, MVP design, and commercial shaping of AI-centric pursuits.

FEATURED WORK

GenAI *assets* & accelerators.

ARCHITECTING NOW

Enterprise Agentic RAG Platform

Multi-Agent · Knowledge Graph + Vector · Corrective RAG · A2A

Enterprise knowledge platform with multi-agent orchestration, hybrid graph + vector retrieval, corrective RAG, multi-source ingestion (Confluence, ServiceNow, SharePoint), tenant isolation, and external agent tool-calling.

Intelligent Change & Release Analyzer for SAP

LangGraph · Azure OpenAI · FastAPI · Milvus · React

AI-powered enterprise platform automating SAP change-request assessment via agentic workflows — ITSM ingestion, semantic KB matching, impact detection, risk rating, effort estimation, DOCX reports.

EA Access Role Analyzer

LangGraph · GPT-4 Vision · MCP Server · FastAPI · ServiceNow

SAP access & role issue resolver — analyzes screenshots via GPT-4 Vision, classifies errors, auto-creates ServiceNow tickets, executes SAP remediation. Multi-tenant with real-time SSE chat.

ClaimWise-AI Platform

LLMs · RAG · FastAPI · Insurance Accelerator

End-to-end AI solution automating insurance claim intake, document understanding, policy matching, and settlement recommendations. White-label ready for carriers and payers.

Parag Engineering Lab

Python · LLMs · Prompt Engineering

Innovation hub of GenAI building blocks — reusable components enabling teams to rapidly prototype enterprise AI solutions. Foundation for client POCs and advisory engagements.

OpenAI Enterprise Patterns

OpenAI API · Function Calling · Agents · Embeddings

Curated catalog of production-ready GenAI patterns — summarization, Q&A, classification, agentic orchestration, structured output — used in workshops and pre-sales.

SIGNATURE ENGAGEMENTS

Two *decades* of trusted delivery.

Information Architect, Data Engineering Lead, and SME at IBM (2000–2022) — delivering strategic data and analytics engagements across global Fortune 500 clients.

Leading Australian Bank
Information Architect · 2021–22

Led client advisory for legacy-to-modern collateral platform migration. Designed migration strategy, quality frameworks, and reusable ETL components.

Large US Healthcare Provider
Data Engineering Lead · 2018–19

Delivered first-of-its-kind production AI assistant (Watson) for Health Benefits serving 500K retail members — foundational engagement shaping current GenAI expertise.

Top-Tier US Financial Institution
Industry Model SME · 2015–16

Led 60-week CCAR regulatory compliance program for a US bank with $50B+ assets. Managed near-shore team in Columbus, OH.

Global Logistics Giant (Denmark)
Data Engineering Lead · 2022

Designed conceptual & blueprint architecture for next-generation supply chain data platform on Azure, including GAP analysis and migration roadmap.

Leading German Automotive OEM
Data Engineering Lead

Re-architected legacy monolithic leasing application into modern microservices using MVP-driven approach with API-gateway-based services and zero-data-loss migration.

Top Australian Bank
Lead Solution Architect · 2014–15

Lead architect for enterprise data warehouse transformation using IBM Industry Models and Stonesoup ETL accelerator.

ENGINEERING LAB

Hands-on *projects*, built in the open.

A working lab of 18+ AI-powered tools — multi-agent systems, RAG pipelines and productivity apps across Claude, Gemini, GPT and Azure OpenAI.

CAPABILITIES

Technology & AI stack.

OpenAI / GPT-4 Vision | LangChain / LangGraph | Agentic RAG / CRAG | Knowledge Graphs | Milvus / Vector DBs | MCP / A2A | Watson Assistant | Python | FastAPI | React.js / Carbon | Streamlit | Azure OpenAI | MongoDB Atlas | AWS | Anthropic Skills | Sentence Transformers | ServiceNow / JIRA | IBM Cloud (COS) | MySQL / NoSQL | Git / DevOps

CERTIFICATIONS

- AWS Certified Solutions Architect — Associate
- IBM Certified Consultant & Data Platform SME
- IBM Watson Data Platform — Sales Foundations
- Banking Insights & Solutions (Silver)

AWARDS

- Top Performer Award — IBM India (USA), 2016
- Manager's Choice Award — Received multiple times
- Service Excellence Award — Q1 2015 (Australia)

LET'S TALK

Have an AI initiative in mind?

Whether you're shaping a GenAI roadmap, scoping an enterprise pilot, or looking for an account partner — I'd love to hear about it. Available for advisory, fractional leadership, FDE engagements and full-time roles.
